Continuation of Substance of Interview including description of the general nature of what was discussed: Amendments to claim 12 were proposed in order to clarify that the sheet material is a laminate of metal or wood, an adhesive layer, and a protective backing layer. The examiner believes this clarification overcomes the combination of Ackeret and Savonuzzi due to the differences in the respective sheet materials of the references. Withdrawn claims 1-6 will be cancelled, and editorial amendments will be made to claim 7. See attached Examiner's Amendment for full write-up.
